Naturally appearing background	2	222	120	14	1	210	40	5	Unappealing boat storage/campers, clearing trees for shoreline homes, too populated, ugly shacks
Water Clarity	1	267	90	10	-	111	93	69	Appears dirty, algae bloom midsummer, affects water quality, boats get filthy, can't see swimmers, debris/cloudy water, erosion, hydrilla makes it better, murky, muddy, not clear, messy, pollution, silt, suds & trash floating, too much moss, too much sediment after rains, driftwood, watercolor
Water Depth	8	152	161	31	8	162	48	43	Concerned during drawdown, erosion problem, lake filling in, needs dredging, many areas very/too shallow, needs cleaned out, needs more control, sediment, silt build up
Development	4	123	128	89	5	112	99	34	APCO must continue to regulate, do not want any, docks extend too far into lake, impacts water quality, lack of boating laws, limit development, already overdeveloped, too crowded, too few marinas/restaurants/businesses/snack bars, too many people, trailers/cabins in disrepair, worried about future problems
Contrast in Vegetation	15	72	171	74	11	141	71	5	Floating grass, heavy sea grass, lack of landscape design, too much seaweed
Contrast in shapes	22	54	142	111	12	117	82	2	Haphazard buildings, size of docks
Contrast in colors	16	69	164	81	11	136	66	2	Some docks in bad shape, ugly structures
Quality of docks, piers, etc.	4	154	170	28	5	133	77	38	Docks in disrepair, junky docks, illegal docks, unsafe docks, dislike pole structure boat storage, lack of maintenance, metal boathouses need to be condemned, not enough public docks & ramps, some docks too large, unappealing docks

	How important is this?				How satisfied?				
Evidence of Erosion	4	216	113	17	3	77	99	70	Areas need protection, contributes to bad water quality, bank washing away, owners are taking vegetation, lake is filling in, lack of planned preventative vegetation, more maintenance needed, silt, shoreline crumbling, stabilization needed, too many trees cut off steep slopes, too much in future because of overdevelopment, too much sediment, wakes cause great erosion of banks
Amount of shoreline vegetation	3	135	169	40	2	130	90	21	Growth makes swimming difficult, hydrilla infestation, the more vegetation means the less erosion, need more, not enough
Roads & Infrastructure	3	145	155	39	3	112	81	33	Bethel Church Road needs paved, needs better maintenance, unpaved roads, need better access to Dehaven from Dublin, need better road system on Dehaven side, in need of improvements, need to be wider, make safer, roads in poor condition (to Dehaven), too much dust
Other	-	20	5	-	-	2	4	19	Boat hazards, boat houses on barrels need maintenance, trash, logs needed cleaned up, noise level, debris, silting causes shallow spots, vegetation in lake is growing especially near Peak Creek, aesthetics, needs more signs and enforcement, too many livestock allowed to wander to water's edge
